BOLEADORAS ARGENTINAS.

WORK/ARTISTIC EXPERIENCE

Andrea, from Tijuana, Mexico, has been immersed in tango training for over 12 years, professionalizing her craft in 2018 as a maestra (teacher) and performer on stages and in the milonga (social dance hall).

She honed her skills with local and international instructors, including extensive study in Buenos Aires, Argentina. Currently, she actively labors in both capacities: as an instructor and in performances, often showcasing role changes (dancing both leader and follower roles).

Andrea presently directs a tango company in Tijuana, teaches various group classes at different academies throughout the city, and collaborates with several artistic venues where she organizes free monthly events.

She hosts two milongas (tango social dance events) per month in Tijuana and holds two practice sessions at Studio Moncayo (her dedicated space). She established the first all-women tango space in Tijuana, where both leading and following roles are explored.
